

THE WOMAN WHOM THE ANGELS FOLLOW: Before you look at this picture of Prophetess Angalin Dukes who we caught off guard with our cell phones, take a deep breath for what you are about to see. After looking at the picture stand away from your computer and look at it again. You will see it glows and lights up from the elbow to the feet. God's glory at work. There are two other pictures right under this to make things clearer and explain more details. Also you can see other pictures and videos at [YOUTUBE.com](https://www.youtube.com) under ***The Woman Whom the Angels Follow***. You will see feathers falling, the dove and all kinds of angelical beings flying all over the place. We see these things in the sanctuary all the time. Satan is angry, always trying to attack her with negativity and people constantly being used by the beast to try and defile God's truth because God's glory on her exposes false prophets and hypocrites yet God is well pleased with His daughter. CANT YOU TELL!

Look at this picture and many others that we have captured on our own cell phones after this woman finished praying for others at the altar. Look at the Glory of the Lord come out of the door after she prays at ***223A Pennsport Mall in South Philadelphia, 3rd & Moore St inside the mall.*** Look at how the glory comes through the door. We've seen things we cannot describe as we caught her off guard coming out of prayer with our cell. A true prophet or prophetess of God, as they go forth and do the Lord's work, His spirit confirms who they are through the signs and wonders that He (The Lord) will work on their behalf (Mark 16:20).

After she recognized that we had taken the picture, we took a second one. A cloud overshadowed us and we heard thunder like it was going to rain. We looked up, we saw nothing but there was a huge circle almost like as if it was the sun. It was shaped like a shining star and colors came down and connected with her and the church door. It was a trail and I said to myself, how could this be! But, I captured it on my own phone. It was something that has never been seen before on the earth yet we read about it in the bible (St. Mark 9:7). As the shadow covered over the place where she was standing, many said the anointing was so strong they could not stand on their feet. They were holding onto the benches and onto each other. Many said it was an angel; some people said they heard something but, they did not know what it was. Yet, when it took place they could not stand. Everything came to a stop for a few seconds. We were shocked because there was no rain and no storm. Afterwards, everything returned to normal. It reminded me of St. John 12:29. Look at the picture for yourself.

Look at this picture and many others that we have captured on our own cell phones after this woman finished praying for others at the altar. Only on Jesus Christ have we ever heard of a transfiguration taking place and now on this woman.
